Claims 1-9 are pending in this application.

Claim 9 is non-elected.

***Response to Restriction***

The election of group I, claims 1-3, in the Paper filed 1/12/10 is hereby acknowledged. Having found the elected invention in condition for allowance, groups II-III drawn to a process of making and methods of use are rejoined. The restriction of claim 9 is still deemed proper and therefore is made FINAL.

Applicant elects group I, M as formula M-I and A as formula AI. There is no indication the election is made with or without traverse. Therefore, it is deemed made without traverse.

***35 U.S.C. 101 reads as follows:***

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 6 is rejected under 35 U.S.C. 101 because the claimed invention lacks patentable utility. Under US patent practice, a use claim without setting forth the steps involved in the process is an improper definition of a process, under 35 U.S.C. See *Ex parte Dunki*, 153 USPQ 678 (Bd. App, 1967) and *Clin. Products v. Brenner*, 149 USPQ 475 (D.D.C., 1966). By deleting the claim the rejection would be overcome.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2, 5-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 2 cites negative limitations which renders the claim indefinite and unpatentable. It does not comply with 35 USC 112. "It is [an] attempt to claim invention by excluding what

Art Unit: 1625

applicants did not invent rather than by particularly and distinctly pointing out what they did invent." *In re Schechter*, 98 USPQ 144 (CCPA, 1953), *In re Rose*, 86 USPQ 77 (CCPA, 1950).

Appropriate correction is required.

Claim 5 is confusing and not clear. Therefore, it is indefinite. If applicant intends to claim composition it should recite composition.

Claims 6-7 are substantial duplicates. Under the US patent practice duplicates or substantial duplicate claims cannot be in the same application. By deleting claim 6 the rejection would be overcome.

The term "synthesizing" and "mixing" in claim 8 are not the same. Therefore, it is indefinite. Appropriate correction is required.

### ***Objection***

Claims 1-8 are objected to for containing non-elected subject matter. The claims must be amended within the scope of the election by applicant, and claim 9 must be deleted to place the application in condition for allowance.
